### Principal's Report-

Welcome to CAPERS week. Students have been working incredibly hard to prepare to the best of their ability prior to the performances this Friday and Saturday. At this stage, students are chomping at the bit and full of excitement. Earlier this week we again explored the concept of broadening our horizons by stepping outside of our comfort zones to the area where “the magic happens”. Students with a broad range of experiences ensure they are prepared to tackle any of the challenges they might face throughout life. Be sure to keep an eye out for the student sculptures of which all of our students have contributed. The Far Far Away sculpture, made from recycled plastic bottles is a collaborative piece featuring the work of 8 schools.

Jessica, Jayana and Jessy-Lee also made sculptures that will be featured over the weekend. We will be holding a short remembrance day ceremony next Friday, November 10. We encourage you to come along and help our students understand the significance of this day. We will be joined by members of our RSL sub branch.

Our kindergarten transition also continues to move forwards. Our 2018 kindergartners are making some fantastic progress in developing even stronger friendships, understanding classroom routines and exploring our playground. Mrs Worley is very impressed with the seamless nature in which they have just slotted in. Students have been enjoying visits from Mitch Power from “Perform with Power Tennis Academy” who has been coming to school to coach all of our students. Students have been regularly experiencing success, developing hand-eye coordination and enjoying the benefits of some fun games. Mitch will continue to come out for the next 2 weeks before we start our end of year tennis competitions.

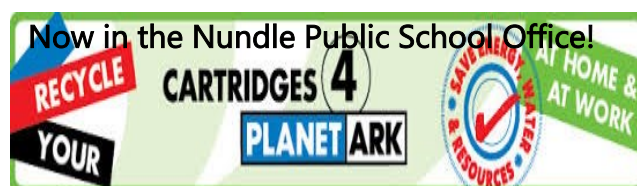

Year 3/4 students are going to embark on their annual excursion to Lake Keepit next week. If the 5/6 excursion is anything to go by, they are destined to have a fantastic time, test some new limits and come closer together as a group.

Hope to see you at Capers!

Regards,

Stephen Gadd

Principal

### Tamworth Bird Watchers

Tamworth Bird Watchers unveiled a birdwatching noticeboard at Sheba Dam last Wednesday and they were kind enough to invite our Year 4/5/6 students along for the morning. The board has been established in partnership with the Tamworth Regional Council to encourage children to go birdwatching. The students got to participate in some birdwatching, perfecting the art of using binoculars, with the support of the bird watching members to identify bird species as part of an annual birdcount. The birdcount is established to monitor the movements of a variety of species of birds across the country. It was a fantastic morning out that was matched by a brief historical tour of Hanging Rock from Marcia Ajani. The students inspected the cemetery and learnt about the previous buildings that used to stand in the original village of Hanging Rock.
